## ANNOUNCEMENT

TO ALL LOVERS OF GOOD CATTLE, GREETING:

In presenting this, my Sixth Annual Sale Catalog, to the Short Horn Breeders of the world, I feel confident that this sale includes the most valuable lot of Scotch cattle than any other previous offering from this herd, and those now offered, you will observe, are of the Cruickshank breed and sired by Scotch bulls, which I have found after long experience to produce the strongest specimens of cattle that are known. They have better constitutions, lay on flesh more rapidly and their produce is more sought after than that of any other family. Most of the cattle are young, but mostly of breeding age, with all their usefulness before them. The cattle are all in good thrifty breeding condition, fresh from the pastures with but very little fitting.

I also wish to call special attention to the get of my herd bulls, Prince Robin 248348, and Merry Dale 320001, as most of the young things in this sale are sired by them, and their calves on sale day will furnish the evidence of their worth as sires. I dare say that there will not be another opportunity in a long time to bid on a better lot of young heifers sired by two such sires as you will find in this sale, most of them are show propositions and good enough to go into any herd of cattle in the United States, the bulls are a good lot and many of them will make good desirable show animals. This will afford both breeders and those seeking show stuff an opportunity to secure their wishes. I have said nothing about the quality of the cattle regarding any one animal. I am confident, however, that those who come will not be disappointed.

All cattle sold will be tested for tuberculosis.

You are cordially invited to be present at this sale, and every comfort is assured to those who attend. The sale will begin at one p. m., TUESDAY, MARCH 12, 1912. A lunch will be served at 12.

Sincerely,

**M. L. Andrews.**

---

**Warranty**—I guarantee every animal of breeding age a breeder. In the case of cows sold with calf at foot, evidence of breeding is present, and no further guarantee is given. All other cows or heifers bred, should they not prove in calf or get with calf after a reasonable trial period, can be returned, and another animal of equal value will be given in exchange, expense of this shipment to be borne by purchaser. Bulls are guaranteed under the same terms. I will not offer for sale any animal that I consider in the least doubtful.

**Pedigrees**—A certificate of registry in the American Short Horn Herd Book will be furnished for every animal, with exception of young calves sold with dam, and there will be furnished for these a pedigree in the application form, ready for registry.

**Terms**—Cash or approved note for three, six or nine months, bearing eight per cent interest. Anyone not personally known to me, wanting time, should bring bank reference. All stock will be loaded on the cars after sale without trouble to the purchaser. Buyer's risk after bid off.

**Auctioneers**—Col. George P. Bellows, Marysville, Mo.; Col. Carey M. Jones, Chicago, Ill.

**Bids**—Parties unable to attend the sale may send mail or telegraphic bids to either of the auctioneers in my care. Address Melbourne, Iowa.

**M. L. Andrews**

**Cruickshank's Orange Blossoms**—Are descended from Jessie by Sovereign. This family is from the same foundation as the Queen of Beautys, coming through Queen of Scotland, a daughter of Edith Fairfax by Sir Thos. Mr. Marr's great bull William of Orange was of this noted Orange Blossom family, as was also the prize winner Imp. Duchess of Gloster 12th in above pedigree was imported in 1871, and she has been the foundation of a great number of Short Horns that for milking and feeding combined, can scarcely be equalled in any country. Perhaps no Scotch family has been more prolific, and it is safe to say that none has done more good to the breed and their owners.

**Imp. Spleenwort**—Was bred by Amos Cruickshank and imported by J. I. Davidson, Ontario. She belongs to his noted Secret family and descends from Sympathy by Duke of Athol, that he bought at Mr. Tanqueray's sale at Hendon in 1855. She produced two heifers, Splendid and Splendor, by Lord Sackville. Mr. Sanders says they were a robust pair and full of substance, and their descendants were retained at Sittyton. They proved prolific and constituted quite a feature of the herd up to the very last. At the Wornall sale at Kansas City, a bull calf descended from Imp. Spleenwort sold to Forbes and Prather, of Illinois, for \$800.

**Prince Robin 248348**—Is a very thick, low-wide-out bull and a very high-class breeding bull. His dam is a large, smooth, dark roan cow, a regular breeder and one of the best cows ever imported. Her calves are all good and command high prices.

**The Cruickshank Duchess of Gloster**—Family is perhaps one of the best known families among the Cruickshank Short Horns throughout the United States. Duchess of Gloster 12th in above pedigree was imported in 1871, and she has been the foundation of a great number of Short Horns that for milking and feeding combined, can scarcely be equalled in any country. Perhaps no Scotch family has been more prolific, and it is safe to say that none has done more good to the breed and their owners.
